Hiring Manager  
Talan  
Abu Dhabi, UAE

Dear Hiring Manager,

Dear Hiring Manager,

With 20+ years leading digital transformation across HealthTech and FinTech sectors, I am excited about the opportunity to bring my expertise in AI automation and operational excellence to Talan.

Throughout my career at Intel, Microsoft, and now SGH, I have consistently delivered large-scale transformation initiatives that combine technical innovation with operational excellence. What distinguishes my background is my unique perspective from the FinTech sector, where I published a weekly newsletter reaching 5,000+ industry professionals.

The Chief Technology Officer (CTO) role at Talan aligns perfectly with my expertise in:

- AI/ML strategy and implementation in healthcare environments
- Large-scale operational transformation (\$50M+ budget management)
- Building and leading high-performing, cross-functional teams
- Driving measurable outcomes: 40% efficiency gains, 25% cost reductions
- Stakeholder management across executive, clinical, and technical teams

I am particularly drawn to Talan's commitment to operational excellence and innovation. My MBA, PMP certification, and Lean Six Sigma training provide the formal framework, but my 20+ years of hands-on leadership across Intel,

Microsoft, and Saudi German Hospital Group provide the practical expertise to deliver results from day one.

I would welcome the opportunity to discuss how my experience implementing enterprise-scale AI solutions can accelerate Talan's strategic objectives. I am available for a conversation at your convenience and can be reached at ahmednasr999@gmail.com or +971 50 281 4490.

Thank you for considering my application. I look forward to the possibility of contributing to Talan's continued success.

Sincerely,

Ahmed Nasr, MBA, PMP

PMO & AI Automation Leader
